## HOW TO APPLY FOR IMMUNOTHERAPY VACCINES

Immunotherapy is one of the safest and most effective treatments for allergies providing long term symptomatic relief.

How to order your vaccine:

1. Apply for VMD Approval (see below)
2. Complete the Allergen Selection Sheet
3. Fax the paperwork back to Avacta Animal Health on 0800 8494 560

To obtain your VMD approved Special Import Certificate (SIC):

1.	Go to <a href="http://www.vmd.gov.uk">www.vmd.gov.uk</a>
2.	Click on tab On Line Services and go into Special Import Site
3.	This will take you through the application process stage by stage. You will need to select either SIC or STC, confirm that you are a UK registered vet and enter your RCVS number.
4.	On page 2 under Country of Origin, from the drop down menu, click on Netherlands and under product name click on Artuvetrin - injectable solution.
5.	On page 3 enter the species – you will need to apply for separate licences for dogs, cats or horses but you can apply for multiple animal licences for the same species.
6.	On page 4 you will need to estimate the amount of vaccine (in mls) that you will need – this is based on your allergen selection Then tick both the following boxes: “To the best of my knowledge there is no product authorised in the UK to treat the condition.” “This product is authorised in the country that I am importing from”
7.	On page 5 tick the <b>Avacta Animal Health</b> box from the drop down list of importers.
8.	Print out your certificate and faxback, along with a completed Allergen Selection Sheet, to Avacta Animal Health on 0800 8494 560.

First applications for STC's (Special Treatment Certificates) for the SPL and Culicoides vaccines are currently only available via paper version, please contact us for assistance with this.

Full details on SIC's and STC's can be found in the Veterinary Medicines Guidance Note Import Certificate Schemes No 7 on the VMD website. These notes are a general guide and must not be treated as an authoritative statement of the VMD regulations.

### Delivery

Your vaccine will be delivered direct to your practice within 10 days of receipt of order at Avacta Animal Health.
